6. Please confirm you understand

These are the points partners most often get wrong. Tick each one, so nothing here is a surprise later.

Commission is paid on the first-year invoice only — 15% in Bangladesh, 7% internationally. Renewals from year two are not shared.

Commission is paid on cleared payments, never on invoices raised, and within 30 days of the money clearing.

I must register a business with Hishebi in writing BEFORE I approach it, and a registration lasts 90 days.

I will run the sale myself. Sending a name and waiting does not earn commission.

I will describe the software honestly and will not promise features it does not have.

I will not quote prices or offer discounts — all pricing and every agreement comes from Hishebi Softwares.

I will not bid on the Hishebi brand name in paid search advertising.

I am applying as an independent contractor, not as an employee of Hishebi Softwares.

I have read the partner programme page at www.hishebisoftwares.com and accept that a signed Partner Sales & Commission Agreement will govern the arrangement.
